I can't begin to tell you how much I have enjoyed Uber. They are always there when you need them. Our local Yellow Cab here in Greenville is the most unreliable and rude experience I have ever had. Please allow the Greenville residents the safety of taking Uber downtown and knowing they will be able to get home. I can't tell you how many times I've taken Yellow Cab downtown and had to walk home because they never are available to take me home.

Thank you,  
Donetta Milner

As someone who has both driven for and ridden with Uber, I implore you to allow Uber to continue in SC.

In Greenville, cabs are unreliable, expensive, slow, and generally poor. Uber and ride sharing is a great alternative and allows people to go out, pour money into the economy, and have a great time with the confidence that they can get home safely.

Greenville is on the grow. Please don't hurt us by not allowing to have the good things that big cities around the world have.

SC needs Ridesharing!

To whom it may concern,

It has come to my attention that the PSC has issued a cease and desist order to Uber. This email is a formal complaint regarding that action taken. Charleston has an overwhelmingly large population of college students, such as myself, who rely on Uber for clean, safe, and affordable rides. The reason that Uber has become so popular, I believe, is due to the fact that taxi drivers are more often than not unpleasant. In addition, the standard rate of a taxi cab ride from one point to another in downtown charleston is a flat rate of \$5 plus \$1 for each additional person. Taxi cab drivers often take advantage of students and tourists who are unaware of this. I personally tried to argue that with a cab driver, as he was charging me \$15 for what would have been a \$6 Uber ride. He then kicked me out of his cab in an unfamiliar place, leaving me to walk the rest of the distance. Please do not mitigate the extraordinary service that Uber provides to the downtown Charleston area, as well as the great state of South Carolina. Allow them to continue to operate with your full support. South Carolina needs Uber.

With Regards,  
John S. Mechem
